LinkedIn: [Breno Camelo - Banco do Nordeste do Brasil | LinkedIn](#)

PROFESSIONAL SUMMARY

Highly motivated Data Engineer and Systems Analysis student with a solid foundation in data architecture and full-stack development. Aimed at leveraging a strong technical foundation to drive innovative data and software solutions. Bringing practical experience in structuring ETL pipelines, data modeling (SQL Server), and automation, alongside fundamental programming skills in Java, C++, and SQL. Eager to apply my strong problem-solving abilities, Git version control expertise, and cloud concepts to support scalable, distributed data processing.

TECHNICAL SKILLS

- **Programming Languages:** Java, C++, SQL, R, JavaScript, TypeScript, C#.
- **Data Engineering & Cloud:** ETL Processes, RStudio, SQL Server, PostgreSQL, AWS (DevOps).
- **Tools & Version Control:** Git, GitHub, RESTful APIs, Automation routines.
- **Business Intelligence:** Power BI, Advanced Excel.

SOFT SKILLS

- **Leadership & Management:** Hands-on experience in team leadership and managing institutional financial resources.
- **Problem-Solving:** Analytical profile for developing logical solutions in software architecture and handling complex data.
- **Communication & Teamwork:** Strong interpersonal articulation, multidisciplinary collaboration, and a strong client-focus, developed in corporate and e-commerce environments.
- **Proactivity & Organization:** Advanced self-management with a focus on structured results and timely delivery in freelance development scenarios.

PROFESSIONAL EXPERIENCE

Banco do Nordeste (BNB) | Fortaleza, CE *Data Analysis and Engineering Intern* | *Current*

- **ETL Pipeline Development:** Directly involved in the extraction, transformation, and loading (ETL) of data using SQL Server and RStudio, ensuring the integrity and availability of information.
- **Automation & Data Modeling:** Implemented automation routines for massive data processing, exporting standardized results (CSV/XLSX) and significantly reducing manual processing time.
- **Business Intelligence (BI):** Created and maintained interactive management dashboards using Power BI and Advanced Excel, translating complex data into visual KPIs.

Freelance Web & Back-End Developer | Remote *Self-Employed* | *Current*

- **API & Back-End Integration:** Built and consumed RESTful APIs connecting the front-end to Node.js services, managing databases and authentication flows.
- **Application Development:** Engineered responsive interfaces and web systems focusing on high performance and componentization.
- **Performance Optimization:** Applied optimization techniques (SSR and SSG) to maximize ranking and Core Web Vitals.

Imported Products Online Store | Remote *E-commerce Manager* | *Previous*

- Managed end-to-end operational flow, inventory control, and B2C customer service.
- Managed databases to optimize logistical operations.

PROJECTS & ACADEMIC EXPERIENCE

- **SCPA (BNB Automation):** Corporate automation project for extracting data from SQL Server via RStudio, implementing business rules across ETL stages.
- **Hardware and Automation (UNIFOR):** Developed a hardware prototype in Arduino (C++) focused on automation, presented at the university's "Dia T" event.
- **CorreAI (AI CRM):** Architected a CRM integrating local LLM chatbots (Ollama) and a recommendation system.

EDUCATION

- **A.S., Systems Analysis and Development** | Universidade de Fortaleza (UNIFOR) | 2025.1 - 2027.1

COURSES & CERTIFICATIONS

- **Data Engineering Fundamentals** - Data Science Academy (DSA)
- **Getting Started with DevOps on AWS** (CI/CD Concepts) - AWS Training & Certification
- **Git and GitHub from Zero to Advanced** - Udemy
- **SQL Database from Zero to Advanced** - Udemy
- **Enterprise Design Thinking Practitioner** - IBM

LANGUAGES

- **English:** Intermediate Reading and Writing, Basic Conversation.
- **Portuguese:** Native.
